A Tour of the Process

Filamentality
spinning web activities
for thinkers since 1996

This tour consists of key Filamentality pages that you will encounter. You can [return to Filamentality](#) and get started at any time by using the menu at the bottom of the page. Use the large blue arrow to continue through the tour. We also have a variety of other Filamentality [training materials](#) that you might find useful.

To create a page in Filamentality:

1. Use the graphic labelled "Start your New Page" (or Return to an Existing Page).
2. Add Links (or Edit Links) using the Navigation Menu located at the bottom of every page.

[Add Links](#) [Edit Links](#) [Hotlist](#) [Scrapbook](#) [Hunt](#) [Sampler](#) [WebQuest](#)

3. Select a [format](#). Hotlist is the easiest because it allows you to create a list of good web sites that you can then use for other online activities that you might want to create later. If you want to continue, we will demonstrate creating a Hotlist.

4. [Continue the tour](#)
